BCME is a celebration of mathematics education attracting delegates from every phase (early years through to university) and aspect (teaching through to research, policy and public engagement), as well as high profile plenary speakers.

The conference takes place on the 3 – 6 April 2018 at the University of Warwick.

Delegates can select from a fantastic selection of workshops, talks, demonstrations, discussion groups and research presentations to devise a highly personalised professional development and enrichment experience of exceptional quality.

Some JMC organisations hold their AGMs at conference, and the Association of Teachers of Mathematics and the Mathematical Association bring their popular bookstalls. There is a publishers' exhibition that allows delegates to peruse the latest publications and resources.

Book online at www.bcme.org.uk or fill in and return this form!
